Analysis Deliverable

Hierarchical Task Analysis (HTA)

Breakdown of Subtask 1.2:

- 1) Locate the Facebook app on your phone's home screen.
- 2) Tap the Facebook app icon to open it.
- 3) Observe the news feed for any event-related posts.
- 4) If an event post appears, tap on it to expand the full post.
- 5) Read the available event details in the post.
- 6) If no event post appears in the feed, locate the search bar at the top of the screen.
- 7) Tap the search bar to open it.

- 8) Type the town name or event name into the search field.
- 9) Tap the search or enter button on the keyboard.
- 10) Locate the Pages or Events filter tab in the search results.
- 11) Tap the filter tab to narrow results.
- 12) Scroll through results to find the town's official page or event listing.
- 13) Tap the page or event listing to open it.
- 14) Scroll through recent posts to find event announcements.
- 15) If event details are incomplete, locate the comments section below the post.
- 16) Scroll through comments for additional information provided by organizers.
- 17) If still insufficient, locate any external link included in the post.
- 18) Tap the link to navigate to an external event page.
- 19) If no usable information is found, exit Facebook and proceed to a Google search.

User Story

"As a small town resident, I want to find all upcoming local events in one place, so that I do not miss things happening in my community, but the information must be accurate and up to date or I will stop using it entirely."
